

JORDAN TRANSFORMER, LLC

JOB POSTING

Electrical Controls Design Engineer

Jordan Transformer has an opening for an Electrical Controls Design Engineer.

Duties would include defining transformer and mobile substations (a) electrical control systems, and (b) reengineer layout drawings, as well as (c) define parts and peripherals, (d) program relay switches, and (e) perform functional tests complying with industry IEEE standards and customer unique requirements.

Experience: understanding of high-power transformer operation and electrical properties.

We offer competitive wages and a full benefits package. Send resume to hr@jordantransformer.com or visit our website at www.jordantransformer.com and fill out an application.
